

# CARBO VEGETABILIS

Officinal vegetable charcoal  
Wood charcoal

---

**Typanites, gas**  
**Cyanosis**

---

Gastric and intestinal  
tympantites (above the navel).

Aggravated in a lying position, from  
intolerance to alcohol and fatty  
food, improved by belching.

Cyanosis: congestive flushes  
and erythrocyanosis of the face  
after ingestion of alcohol, even  
in small quantities.

Atonic ulcers

Raynaud's syndrome

Chilblains

Acute or chronic respiratory failure  
in elderly patients.

Whooping cough.

## Aggravation

- From alcohol
- From fatty food

## Improvement

- With belching
- On being fanned
