Eczema
Constipation
Chilliness

Cutaneous disorders:

Eczematous eruptions, yellowish oozing vesicles, with pruritus and burning, becoming covered with small scabs.

Fissures of the nipples, tips of the fingers. Keloid scars (as soon as they appear).

Painful warts around the nails.

Digestive disorders:

Atonic chronic constipation, without urge, with voluminous stools held together by mucus.

Bloatedness and intolerance to tight clothes.

Hemorrhoids with painful and oozing fissures.

Aggravation:

- from cold,
- from warmth in bed,
- during menses.

Improvement:

- with movement in the open air,
- when eating.
